

Biotifx[®] LIQUID SR 10X

Product Code

5 Gal: BV72-WDP0-01
55 Gal: BV72-WDPE-01
265 Gal: BV72-WDPF-01

Biotifx[®] LIQUID SR 10X is a concentrated product which is easily diluted and used in a variety of wastewater treatment systems to alleviate challenges associated with fat, oil, and grease (FOG), sludge, odor, and hydrogen sulfide (H₂S).

Applications

- Lift Stations
- Grease Traps
- Drains
- Septic Treatment
- Small WWTP (< 1,000 GPD)

Biotifx[®] ULTRA

Product Code

WSP: BU43-BSW4-03

Biotifx[®] ULTRA is a complete, robust product used in a variety of wastewater treatment systems to alleviate challenges associated with fats, oils, and grease (FOG), sludge, odor and hydrogen sulfide (H₂S).

Applications

- Lagoons
- Aeration Basin
- Force Mains
- Ponds
- Lift Stations
- Grease Interceptors
- SBR & MBR Plants

Biotifx[®] 40B

Product Code

Powder: BT44-ASB0-02

Biotifx[®] 40B is a concentrated powder product used in a variety of wastewater treatment systems to alleviate challenges associated with fats, oils, and grease (FOG), sludge, odor, and hydrogen sulfide (H₂S).

Applications

- Lagoons
- Aeration Basin
- Force Mains
- Ponds
- Lift Stations
- Grease Interceptors
- SBR & MBR Plants

Biotifx[®] FOG

Product Code

Powder: BF43-BSB0-01
WSP: BF43-BSW4-01

Biotifx[®] FOG is a complete, robust product used in a variety of wastewater treatment systems to alleviate challenges associated with fats, oils, and grease (FOG) and hydrocarbons.

Applications

- Lagoons
- Collection Systems
- Applications where hydrocarbons are present
- Grease Traps

Biotifx[®] ST (Sludge Tanks)

Product Code

WSP: BU43-BSW4-04

Biotifx[®] ST was designed specifically for application in sludge holding tanks, ponds, and in thickeners to reduce sludge disposal by improving digestion, settling, and dewatering.

Applications

- Sludge Tanks
- Sludge Thickeners
- Sludge Ponds
- Aerated Sludge Digester

Biotifx[®] P&P

Biotifx[®] P&P is formulated with strains chosen specifically for their ability to produce high levels of fiber digesting enzymes.

Product Code

Powder: BP44-BSB0-01
WSP: BP44-BSW4-01

Applications

- Pulp and Paper

Biotifx[®] PETRO

Biotifx[®] PETRO is formulated with strains chosen specifically for TPH, BTEX, GRO and DRO degradation and the heavy chemical loads of the petrochemical industries.

Product Code

Powder: BT45-BSB0-01
WSP: BT45-BSW4-01

Applications

- Petrochemical
- Pharmaceutical
- Oil Remediation
- Chemical Blending

Biotifx[®] AMMO

Biotifx[®] AMMO is formulated to enhance ammonia removal within wastewater systems where conditions are not suited for Nitrosomonas and Nitrobacter-based nitrification processes.

Product Code

Powder: BA46-BSB0-01
WSP: BA46-BSW4-01

Applications

- Rendering
- Meat
- Food
- Petrochemical
- Chemical Blending
- Dairy

Biotifx[®] FRZ

Biotifx[®] FRZ is designed with strains specifically selected for their ability to maintain treatment in low temperature (< 59°F / 15°C) conditions.

Product Code

Powder: BZ43-BSB0-01
WSP: BZ43-BSW4-01

Applications

- Pulp and Paper
- Beverage
- Dairy
- Pharmaceutical
- Food Ingredient
- Meat
- Petroleum

Private Label Option:

All Biotifx[®] products can be offered as private label.
