

**BIOTIFX<sup>®</sup>**  
WASTEWATER TREATMENT

**PRODUCT  
LINE**

**LIQUID**

**BIOTIFX<sup>®</sup> SR 10X**

**Product Code**

5 Gal: BV72-WDP0-01  
55 Gal: BV72-WDPE-01  
265 Gal: BV72-WDPF-01

Biotifx<sup>®</sup> LIQUID SR 10X is a concentrated product which is easily diluted and used in a variety of wastewater treatment systems to alleviate challenges associated with fat, oil, and grease (FOG), sludge, odor, and hydrogen sulfide (H<sub>2</sub>S).

**Industries**

- Lift Stations
- Grease Traps
- Drains
- Septic Treatment
- Small WWTP (< 1,000 GPD)

**BIOTIFX<sup>®</sup> LIQUID MAX**

**Product Code**

5 Gal: BM23-WDPB-02  
55 Gal: BM23-WDPE-02

Biotifx<sup>®</sup> LIQUID MAX is our most concentrated liquid product used in a variety of wastewater treatment systems to alleviate challenges associated with hydrogen sulfide (H<sub>2</sub>S), fats, oils, grease (FOG), sludge and odor.

**Industries**

- Collection systems
- Small wastewater treatment plants
- Lagoons
- Industrial & municipal grease interceptors
- Septic systems

**BIOTIFX<sup>®</sup> LIQUID MAX FRZ**

**Product Code**

5 Gal: BZ23-WDPB-01  
55 Gal: BZ23-WDPE-01  
265 Gal: BZ23-WDPF-01

Biotifx<sup>®</sup> LIQUID MAX FRZ is formulated with a liquid blend of *Bacillus* strains scientifically selected for their ability to degrade a broad range of organic material in cold temperatures below 10°C (50°F). The addition of a proprietary blend of micronutrients and biostimulants heightens both product performance and indigenous bacterial population.

**Industries**

- Collection systems
- Wastewater treatment plants
- Lagoons
- Industrial and municipal grease interceptors
- Aerated sludge digester

**POWDERS**

**BIOTIFX<sup>®</sup> ULTRA**

**Product Code**

Powder: BU43-BSB0-01  
WSP: BU43-BSW4-03

Biotifx<sup>®</sup> ULTRA is a complete, robust product used in a variety of wastewater treatment systems to alleviate challenges associated with fats, oils, and grease (FOG), sludge, odor and hydrogen sulfide (H<sub>2</sub>S).

**Industries**

- Lagoons
- Aeration Basin
- Force Mains
- Ponds
- Lift Stations
- Grease Interceptors
- SBR & MBR Plants

**BIOTIFX<sup>®</sup> 40B**

**Product Code**

BT44-ASB0-02

Biotifx<sup>®</sup> 40B is a concentrated powder product used in a variety of wastewater treatment systems to alleviate challenges associated with fats, oils, and grease (FOG), sludge, odor, and hydrogen sulfide (H<sub>2</sub>S).

**Industries**

- Lagoons
- Aeration Basin
- Force Mains
- Ponds
- Lift Stations
- Grease Interceptors
- SBR & MBR Plants

**BIOTIFX® FOG**

**Product Code**

Powder: BF43-BSB0-01  
WSP: BF43-BSW4-01

Biotifx® FOG is a complete, robust product used in a variety of wastewater treatment systems to alleviate challenges associated with fats, oils, and grease (FOG) and hydrocarbons.

**Industries**

- Lagoons
- Collection Systems
- Grease Traps
- Applications where hydrocarbons are present

**BIOTIFX® FRZ**

**Product Code**

Powder: BZ43-BSB0-01  
WSP: BZ43-BSW4-01

Biotifx® FRZ is designed with strains specifically selected for their ability to maintain treatment in low temperature (< 59°F / 15°C) conditions.

**Industries**

- Pulp and Paper
- Food Ingredient
- Beverage
- Meat
- Dairy
- Petroleum
- Pharmaceutical

**BIOTIFX® ST**

**Product Code**

WSP: BU43-BSW4-04

Biotifx® ST (Sludge Tank) was designed specifically for application in sludge holding tanks, ponds, and in thickeners to reduce sludge disposal by improving digestion, settling, and dewatering.

**Industries**

- Sludge Tanks
- Sludge Thickeners
- Sludge Ponds
- Aerated Sludge Digester

**BIOTIFX® P&P**

**Product Code**

Powder: BP44-BSB0-01  
WSP: BP44-BSW4-01

Biotifx® P&P is formulated with strains chosen specifically for their ability to produce high levels of fiber digesting enzymes.

**Industries**

- Pulp and Paper

**BIOTIFX® PETRO**

**Product Code**

Powder: BT45-BSB0-01  
WSP: BT45-BSW4-01

Biotifx® PETRO is formulated with strains chosen specifically for TPH, BTEX, GRO and DRO degradation and the heavy chemical loads of the petrochemical industries.

**Industries**

- Petrochemical
- Pharmaceutical
- Oil Remediation
- Chemical Blending

**BIOTIFX® AMMO**

**Product Code**

Powder: BA46-BSB0-01  
WSP: BA46-BSW4-01

Biotifx® AMMO is formulated to enhance ammonia removal within wastewater systems where conditions are not suited for Nitrosomonas and Nitrobacter-based nitrification processes.

**Industries**

- Rendering
- Meat
- Food
- Petrochemical
- Chemical Blending
- Dairy

**Private Label Option:**

All Biotifx® products can be offered as private label.

**Order Process:**

Phone: +1 (414) 235-3767  
Fax: +1 (414) 235-4051  
Email: orders@mdgbio.com

**FOB Shipping Point:**

Microbial Discovery Group  
7420 S Howell Ave, Suite 100  
Oak Creek, WI 53154
